Machine high.		2400mm (15 Pallets / 2870mm (20 pallets)
Machine Weight.		500kg / 600kg
Operation.		Manual operated by HMI screen
Cycle time.		Approx. 60 sec.
Connection.		230V - 3 facers+N+PE / Pneumatic 6bar

Samzon Pallet-dispenser pallet magazine is a stationary machine used to stack and de-stack pallets for handling and managing pallets.

Samzon Pallet-dispenser automizes pallet handling makes work with stacking and de-stacking pallets more efficient and alleviates employees from unfavorable manual and heavy pallet lifting. PalTurn Pallet Magazine becomes a natural part of your production, warehouse, packing department or store - any place where stacking and de-stacking pallets takes place on ground level. Safety, when using the PalTurn Pallet-dispenser pallet magazine, is prioritized in terms of market demands for ergonomic work and health and safety. The pallets are handled with a pallet truck or pallet lifter when working with the PalTurn Pallet-dispenser.

PalTurn Pallet-dispenser can be delivered with a variety of extra equipment and surface treatments
